RIESLING trocken (dry)

A great passion for Riesling led Martin Foradori to the Saar in Germany's Mosel wine region. In 2014, he seized the opportunity to revive the traditional Weingut Dr. Fischer. Riesling grows in exceptional vineyards here.

In 2022 his project was further expanded, reaching the Rheinhessen area along the Rhine River.

This Riesling trocken express the characteristics of the grape variety best. It stands out with its classic Mosel slate note and its mineral bouquet of citrus.
